F. No. 1-111/2023-24/CCRH/Tech/Arctic Circle/97 Date: 28.02.2024

To,

UArctic International Secretariat,
University of Lapland, Rovaniemi
Finland

Madam/Sir,

Central Council for Research in Homoeopathy (CCRH), is an apex autonomous body, for scientific research in Homoeopathy under the Ministry of Ayush, Government of India which undertakes research activities in Homoeopathy such as Clinical Research, Drug Proving, Drug Verification, Drug validation, Drug Standardization, Public Health Research, Fundamental Research and Epidemic research either in intramural mode or in collaboration with different Universities/ institutes of repute. CCRH has 27 peripheral institutes/Units and 07 Homoeopathic treatment centres across the country which undertake research in the aforementioned fields.

2. Central Council for Research in Homoeopathy, New Delhi is looking forward to join the UArctic network and undertake research in effects of climatic changes, extreme weather conditions, environment in health and their treatment, in the arctic region.

3. An application form, for membership in the UArctic, has been submitted CCRH. The application has the full support of the Competent Authority/Leadership of CCRH.

Dr. Subhash Kaushik,
Director General

2024 UARCTIC MEMBERSHIP APPLICANT - PROFILE

Applicant: Central Council for Research in Homoeopathy (CCRH)

Country: India

Membership Category: Non-Arctic

Membership Type: Other Institution

Profile Description:

Central Council for Research in Homoeopathy (CCRH), is an apex autonomous body, for scientific research in Homoeopathy under the Ministry of Ayush, Government of India which undertakes research activities in Homoeopathy such as Clinical Research, Drug Proving, Drug Verification, Drug validation, Drug Standardization, Public Health Research, Fundamental Research and Epidemic research either in intramural mode or in collaboration with different Universities/ institutes of repute. CCRH has 27 peripheral institutes/Units and 7 Homoeopathic treatment centers across the country which undertake research in the aforementioned fields.

Strategic/Thematic Focus Areas:

Clinical Research: Research studies on Acute encephalitis syndrome, Covid-19, side effects of chemotherapy in cancer, Post covid-19 illness, Chronic kidney disease, trigeminal neuralgia, haemophilia, dengue, hypothyroidism, pre diabetes, Menstrual irregularities, cholelithiasis, anaemia, bronchial asthma, psoriasis, renal calculi, progressive myopia, osteoarthritis, rheumatoid arthritis, gout, primary dysmenorrhea, irritable bowel syndrome, Acute Ischemic stroke, Otitis Externa, Non-Alcoholic Fatty Liver Disease (NAFLD), primary chronic anal fissures, Stable Ischemic Heart Diseases, Allergic Rhinitis, Distal radius Fracture, Simple Myopia, Chronic Suppurative otitis media, Prehypertension, Female infertility due to anovulatory polycystic ovarian syndrome, Chronic urticaria, Chronic Migraine, Early Hemorrhoidal Disease, adhesive capsulitis of the shoulder/Frozen shoulder, Plantar Fasciitis etc.

Drug validations studies have been undertaken on dyspepsia, migraine, asthma, acne, hemorrhoids etc.

Drug Development: Pharmacognostic and physico-chemical standards of drugs have been developed; revision and up-gradation of existing monographs are being conducted.

Drug proving and Clinical verification studies.

Fundamental and Basic Research: Fundamental research to explore the possible action of homeopathic medicine is being carried out on cancer (Amity University, Delhi University), Malaria , Leishmaniasis (Kalinga Institute of Industrial Technology University, Bhubaneswar) , JE & Dengue (Dr. Anjali Chatterjee Regional Research Institute for Homoeopathy, Kolkata), Covid related studies (Dr. Anjali Chatterjee Regional Research Institute for Homoeopathy, Kolkata, AIIMS Jhajjar, Dr. DP Rastogi Central Research Institute for Homoeopathy, Noida, and Utkal University).

New studies have been initiated on conditions like Diabetes, Renal stones, Cancer, malaria, JE, kala azar. In diabetes molecular mechanism of action of Syzygium jambolanum and Cephalandra indica, in another molecular level study anti-lithiatic potential of homeopathic preparation of B. vulgaris studied. Similarly of cancer cells killing property of Thuja & Sulphur, were studied and pathway of action were explored.

Public Health Programmes

- The Integration of NPCDCS programme for Homoeopathy, was implemented since Sept 2015. The program was evaluated by National Institute of Health and Family Welfare. No. of beneficiaries from OPD – 518253.
