Sir/Madam

Greetings from Central Council for Research in Unani Medicine!

CCRUM is an apex government organization under Ministry of Ayush, for conducting research and development in Unani Medicine, which is one of the recognized systems of traditional medicine in India. The primary mission of CCRUM is to foster innovative research, promote excellence in Unani Medicine, and contribute to the advancement of healthcare through evidence-based practices. With a strong commitment to quality and collaboration, the CCRUM strives to create a positive impact on public health and wellbeing.

The Council looks forward to providing healthcare services and technological solutions through research collaborations in the arctic region. One of the peripheral Institute of CCRUM, the Regional Research Institute of Unani Medicine at Srinagar, Kashmir is providing healthcare services and conducting research in similar climate conditions. Collaborative research projects between RRIUM, Srinagar and arctic institutes will be beneficial in providing solutions to the health problems in the area.

An application form has been submitted by CCRUM for membership in the UArctic network. The application has full support of the competent authority of the CCRUM.

Dr. N. Zaheer Ahmed
Director General

2024 UARCTIC MEMBERSHIP APPLICANT - PROFILE

Applicant: Central Council for Research in Unani Medicine (CCRUM)

Country: India

Membership Category: Non-Arctic

Membership Type: Other Institution

Profile Description:

The Central Council for Research in Unani Medicine (CCRUM) is an apex research organization operating under the Ministry of Ayush, Government of India. Since its inception in March 1978, the CCRUM has been dedicated to pioneering research and development in the field of Unani Medicine. Headquartered in New Delhi, it operates through a robust network of 23 research centers strategically positioned across the nation. The primary mission of CCRUM is to foster innovative research, promote excellence in Unani Medicine, and contribute to the advancement of healthcare through evidence-based practices. With a strong commitment to quality and collaboration, the CCRUM strives to create a positive impact on public health and wellbeing. The state-of-the-art facilities of CCRUM are accredited by prestigious agencies like the National Accreditation Board for Hospitals & Healthcare Providers (NABH) and the National Accreditation Board for Testing and Calibration Laboratories (NABL).

The main objectives of the CCRUM are:

- Formulation of aims and patterns of research on scientific lines in Unani Medicine
- To undertake research or any other programmes in Unani Medicine
- Prosecution of and assistance in research and propagation of knowledge and experimental measures generally in connection with the causation, mode of spread and prevention of diseases
- To initiate, aid, develop and coordinate scientific research on different aspects, fundamental and applied, of Unani Medicine and to promote and assist institutions of research for the study of diseases, their prevention, causation and remedy
- To prepare, print, publish and exhibit any papers, posters, pamphlets, periodicals and books for furtherance of the objectives of the council and to contribute to such literature

The Council has made significant strides in clinical research, drug standardization, survey and cultivation of medicinal plants, and literary research. Besides, research-oriented health extension services, and information, education and communication (IEC) activities have also been part of the Council's programmes. The CCRUM is fully funded by the Ministry of Ayush, Government of India.

Strategic/Thematic Focus Areas:

- Preclinical Research
- Clinical Research
- Fundamental Research
- Drug Standardisation Research
- Survey and Cultivation of Medicinal Plants
- Literary Research
- Public Health Outreach activities
- IEC (Information Education and Communication) activities
