

UArctic is a cooperative membership network concerned with education and research in and about the North. Together we enhance human capacity in the North, promote viable communities and sustainable economies, and forge global partnerships. The most important ways to participate are involvement in our networking activities, especially our Thematic Networks with joint research and education activities, and the north2north mobility program for studying and experiencing life in another North.

# BORN IN THE NORTH.

Tytti Bräysy

"After nearly a decade in advertising, I decided it was time to follow my dreams. I re-educated myself in jewellery and gemstones at the Sámi Education Institute in Inari, Finland, and my interest in Arctic indigenous cultures also took me on inspiring exchanges to Nunavut Arctic College in Iqaluit, Canada and Taimyr College in Dudinka, Russia. Each of these three UArctic members have had their own influence in my work."

"In any field you must always find your own path and inspiration. I found it from the North, its flora and fauna, and the past and present of my home region. I am glad to share my love of nature with others through my jewellery and earn a living at the same time. And I do intend to continue learning more about the Arctic..."

Tytti Bräysy, Designer and Owner of Paarma Design
