

Fishermen and Hunter's Association in Greenland

Kalaallit Nunaanni Aalisartut Piniartullu Kattuffiat

Fiskernes og Fangernes Sammenslutning i Grønland

Kalaallit Nunaat

Which environment is surrounding us? Where are we situated?

Part of the Northern Hemisphere.

Part of the Arctic Ocean.

Part of the Northern Atlantic Ocean.

A country covered in 2,166,000 km² area.

Around 10 mill. km² ocean.

>44.000 km coast line.

Inhabited by 56.661 people (as of July 1, 2022).

2,670 km from North to South.

1,050 km from West to East.

Country that is rich on living and non-living resources.

Northern most Greenland is dark in almost 4 months during the winter.

Mean temperature +18° C during the summer and -42° C during the winter.

Three time lines (-5 GMT (Pituffik) -2 GMT (Ittoqqortoormiit)).

73 communities (excl. Nuugaatsiaq and Illorsuit) 17 towns and 56 villages.

WHY WE HAVE BEEN ABLE TO SURVIVE AND LIVE IN THE ARCTIC

We have survived in the Arctic because of our ancestors ability and adoption to live under harsh environment and conditions. These are now central part of our culture, traditions and principles, that secure our livelihood, economy and future.

FREEDOM – RESELIENCE – INGENUITY – ABILITY – TRADITIONS

Advisory Board for Halibut Fishery

Legislation

- Parliamentary Act no. 5 of 4 June 2012 on Fishery (Upper limit for quotas in the coastal halibut fishery).

Executive Order

- Executive Order no. 46 of 14 December 2020 on Coastal Halibut Fishery.

Municipal Guidelines

- Kommuneqarfik Sermersooq Municipal Guidelines for Industrial Halibut Fishery of 3 April 2014.
- Avannaata Kommunia Municipal Guidelines no. 1 of 5 January 2022 for Industrial Halibut Fishery in Upernavik Management Area.
- Avannaata Kommunia Municipal Guidelines no. 2 of 5 January 2022 for Industrial Halibut Fishery in Uummannaq Management Area.
- Avannaata Kommunia Municipal Guidelines of 4 December 2020 for Net Fishery of Halibut in Disco Bay Management Area.
- Kommune Qeqertalik Municipal Guidelines no. 3 of 21 July 2022 for Net Fishery of Halibut.

International regulation

Northwest Atlantic Fisheries Organization (NAFO) regulates the quotas in 0A, 1A-1F, 3M and 3N.

Management Plan for Halibut fishery

- Management Plan for Halibut Fishery for 2021-2025 is in order.

Rules of Procedure for the Advisory Board for Halibut Fishery

- The Advisory Board hold at least 4 meetings annually. The Advisory Board can also hold meetings as needed.

Ongoing work

- The Ministry of Fishery and Hunting has proposed to stop issue new licenses for Halibut Fishery on Boat in 2023. KNAPK and Advisory Board for Halibut Fishery is being consulted.

Advisory Board for Other Fish Species

Legislation

- Fisheries Act no. 18 of 31 October 1996 §§ 5, 8 and 10, § 10a, par. 1, § 13, par. 2, §§ 23, 25 and 26, § 33, par. 3 and Amendment Act no. 28 of 28 November 2016.
- Resource Exploitation Tax in Greenland Act no. 46 of 23 November 2017.
- Amendment Act no. 24 of 1 December 2021 for Taxation of Fishing Catch (Higher Tax for Export of some Fish).

Executive Orders

- Greenland Selfrule Executive Order no. 29 of 28 July 2022 for Salmon Fishery.
- Greenland Selfrule Executive Order no. 22 of 22 June 2021 for Lumpfish Fishery.
- Greenland Selfrule Executive Order no. 4 of 30 March 2017 for Technical Measures to Ensure Conservation.

Municipal Guidelines

- There are no Municipal Guidelines for Salmon Fishery. Yet KNAPK contemplate to question quota for Leisure Fishery for Salmon.

Management Plan for Salmon Fishery

- Greenland Government Management Plan for Salmon Fishery 2021-2025 is in order.
- KNAPK Advisory Board for Other Fish Species has suggested establishment of 6 management areas (NAFO convention are 1A, 1B, 1C, 1E and 1F to include trade with lumpfish roe).

International Organizations

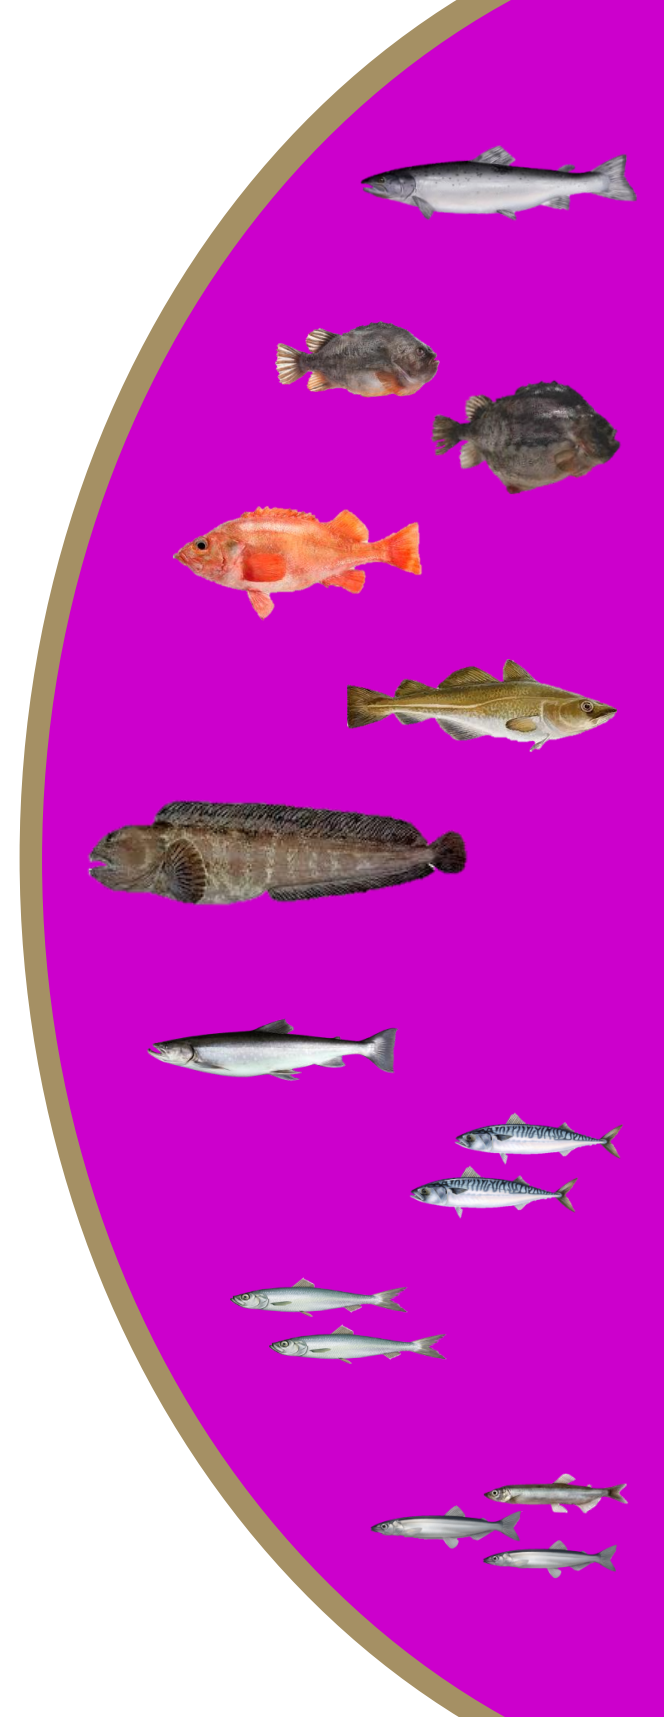

- North Atlantic Salmon Conservation Organization (NASCO) regulate conservation of Atlantic Salmon and quotas for Salmon are allocated every year..
- Northwest Atlantic Fisheries Organization (NAFO) regulate quota for cod and redfish.
- North East Atlantic Fisheries Commission (NEAFC) regulate quotas for redfish, cod, herring, capelin and mackerel.

Fishery in International Waters

Redfish and cod is regulated by NAFO in 3M and 3N, while redfish, cod, herring, capelin and mackerel is regulated by NEAFC in North East Atlantic, Barents Sea and Russian Sea.

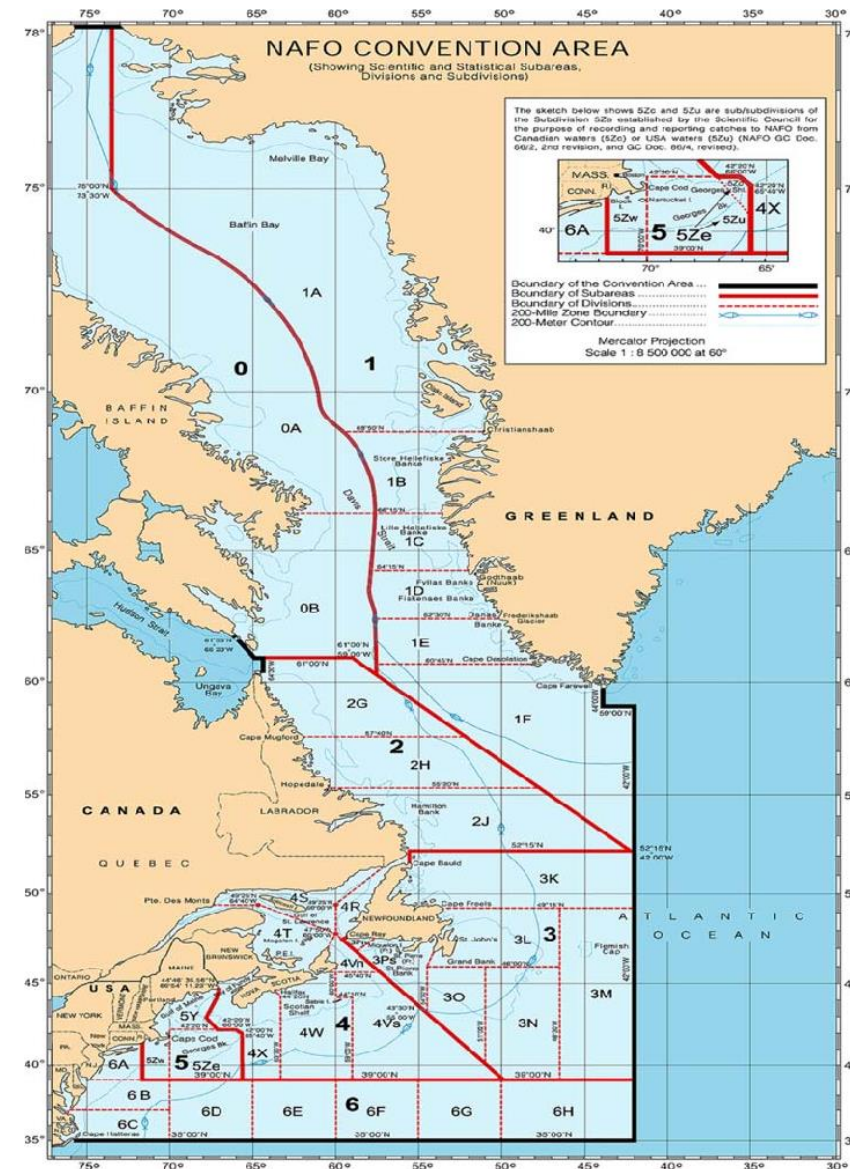

Rules of Procedures for the Advisory Board of Other Fish Species

- The Advisory Board for Other Fish Species meet 4 times a year. The Advisory Board can also hold meetings as needed.

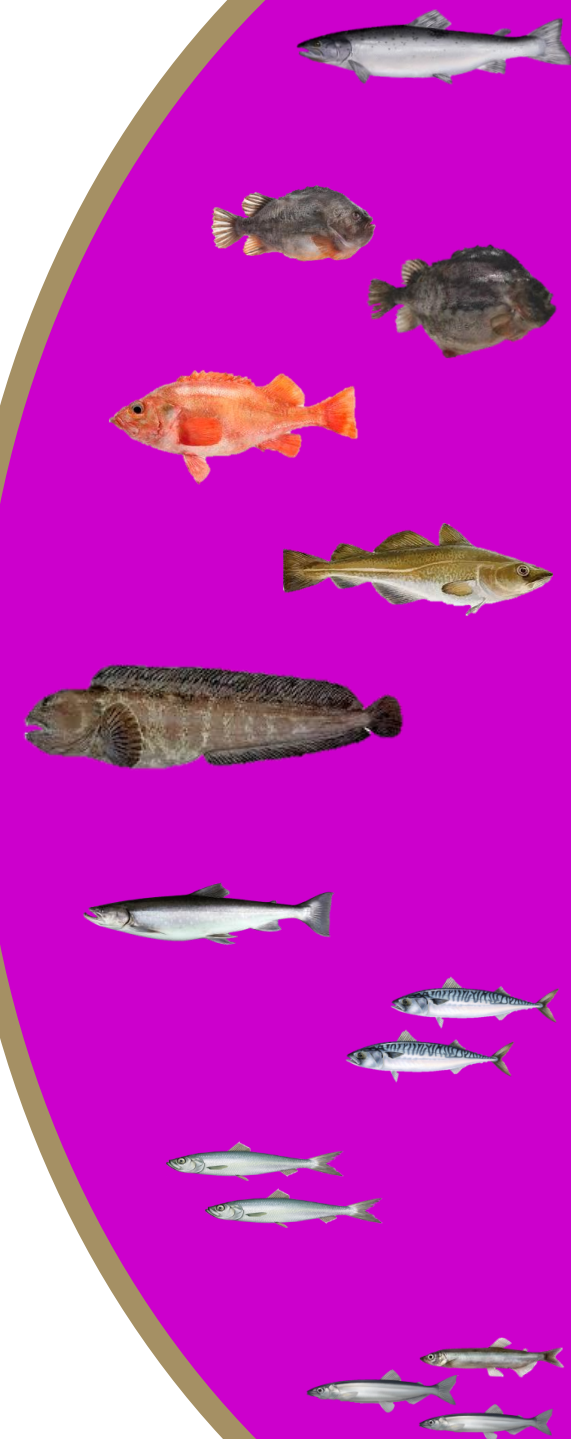

Advisory Board for Other Fish Species

Northwest Atlantic Fisheries Organization (NAFO) convention area.

North East Atlantic Fisheries Commission (NEAFC) regulated areas.

Technical Service for Fishermen and Hunters

Technical Service for Fishermen and Hunters are situated in Aqqusinersuaq 31, 1st Floor. Fishers and hunters only affiliated with KNAPK and organized are serviced by Technical Service.

Steen Brandt

Technical Consultant

Technical Service for Fishers and Hunters

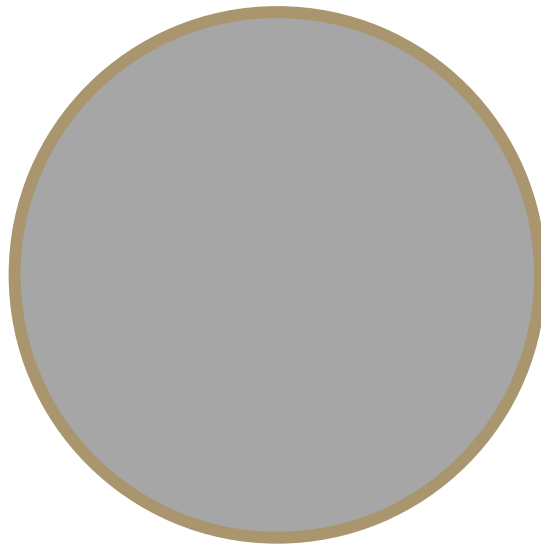

- ✓ Counselling to any fisherman or hunter.
- ✓ Counselling to fishermen in purchase of a new fishing/hunting boat or vessel.
- ✓ Achieving drawings or offers for a new fishing/hunting boat or vessel.
- ✓ Improving details after obtaining drawings of the fishing/hunting boat or vessel.
- ✓ Guidance in making a budget.
- ✓ Guidance in how to send application to public authorities or banks.
- ✓ When beforementioned matters are achieved next step will be to secure order to produce boat/vessel.
- ✓ Search for boat/vessel and/or motor parts and/or equipments.
- ✓ Due diligence of if whether boat/vessel put for sale has been used as guarantee, if no problem further process will be followed.
- ✓ Guidance in purchase order for a new vessel.
- ✓ Certificate of vessel owner.
- ✓ Guidance in filling R1 form (for owners) or R2 (for cooperative fisheries) form
- ✓ Counselling to achieve a nationality paper for the origin of the fishing vessel.
- ✓ Counselling to outline repair work of fishing vessels.
- ✓ Counselling in application for subsidy for reemergence in fishery.
- ✓ Counselling in application for subsidy for condemnation.
- ✓ Course in handling and maintenance of Granat-99, accounting, fishery etc.
- ✓ Arrangement of various legal mandatory course in hygiene, processing etc. in collaboration with the technical schools.
- ✓ Guidance in how to ensure fishing boats and vessels.
- ✓ Guidance in common industrial ensurance for fishermen.
- ✓ Guidance in how to comply with public demands.
- ✓ Solicitation in matters between fishermen and the Maritime Agency.
- ✓ Solicitation in application for fishing license.
- ✓ Solicitation in trade with fishing quotas.
- ✓ Counselling in purchase of motor parts.
- ✓ Counselling in how to achieve certificate for purchase of fishing boat or vessel.
- ✓ Counselling in purchase of new vessel motor.
- ✓ Counselling in Taxation.
- ✓ Counselling in how to achieve industrial support and subsidy.
- ✓ Counselling on debt and late payments.
- ✓ Counselling on legislation, law, executive orders and administrative guidelines.
- ✓ Counselling in work related injuries.

Consultant Service for Vessel Crew Members

Consultant service for vessel crew members is relatively a new area for KNAPK and there is a plan to hire a consultant in 2023. The consultant will work on counseling the vessel crew members (domestic trawlers and Greenlandic vessel fishing in the international waters) with the rest of the staff in KNAPK secretariat.

Trawling is a unique industry and there is various and broad tasks in this area.

Which rights do crew members have? What options do they have? Why do the crew members pay for the costs of the trawling companies' operation in part fishery? Do the crew members pay retirement savings? What options do crew members have for retirement savings? What requirements do the international vessels have?

John Doe (TBD)

Where does the international fishery happen? How much is the hire for the crew members? What legal rights do the crew members have? Which content do the international conventions have of relevance for crew members?

Amongst many other questions the content of the work consist

- Of legal counselling
- Working rights
- Hire payment
- Retirement payment, ensurance and financial counselling and
- Consultancy.

Consultancy for Vessel Crew Members

- ✓ Information about the crew members rights.
- ✓ Information about the hire, retirement payment and conditions for working in fishing vessels.
- ✓ Contact to Fishing companies.
- ✓ Achieve right to negotiate on behalf of the crew members in Greenlandic fishing vessels.
- ✓ Work to abolish party fishery for crew members.
- ✓ Organize crew members under KNAPK and protect their rights.
- ✓ Achieve agreement for vessel crew members fees with the seafood companies.
- ✓ Enlisting crew members under KNAPK.

International Organizations KNAPK is pursuing its interests and goals. Status at ICES, IUCN, NEAFC and CAFF still undetermined.

Areas of where Arctic collaboration could enhance utility and preservation of certain species.

Fisherman and hunter
Ado Goliathsen (52 Year Old)
Kangaamiut

Ado showing catch of over 2 meter long
Turbot caught in Kangerlussuup Paava.

Photo of 13 August 2019. His biggest
catch of Turbot is 156 kg without head
and guts!

Ado Goliathsen is member of the
Advisory Board for Hunting. He has been
member in the Advisory Board for 9
years.

Ado Goliathsen has been treasurer in
Kangaamiut Fishermen and Hunter's
Organization in 16 years.

Fisherman and hunter

Edvard Nielsen (54 Year Old)

Qaarsut

Narwal catch near Ikorfat in 14
November 2018.

Edvard Nielsen is member of the
Advisory Board for Other Fish Species.

Edvard Nielsen is treasurer in Qaarsut
Fishermen and Hunter's Organization,
where he has been organized in over 39
years.

Edvard Nielsen has been member of the
Qaarsut Village Council since 2013, and
since 2017 been chairman of the
council.

Fisherman and hunter

Esaias Jeremiassen (44 Year Old)

Kitsissuarsuit

Polar Bear caught by 9 hunters in
Qingap Nuua near Kitsissuarsuit in
3 April 2017.

Esaias Jeremiassen is a member of
the Advisory Board for Other Fish
Species.

Esaias Jeremiassen is chairman in
Fishermen and Hunter's Organization
in Kitsissuarsuit. He has been
organized in 30 years.

Fisherman and hunter

Knud Mølgaard (57 Year Old)

Sisimiut

Walrus catch in Walrus Bank in ultimo March 2020.

Knud Mølgaard's average annual catch are 6 animals.

He has been member of the Advisory Board for Hunting in 4 years.

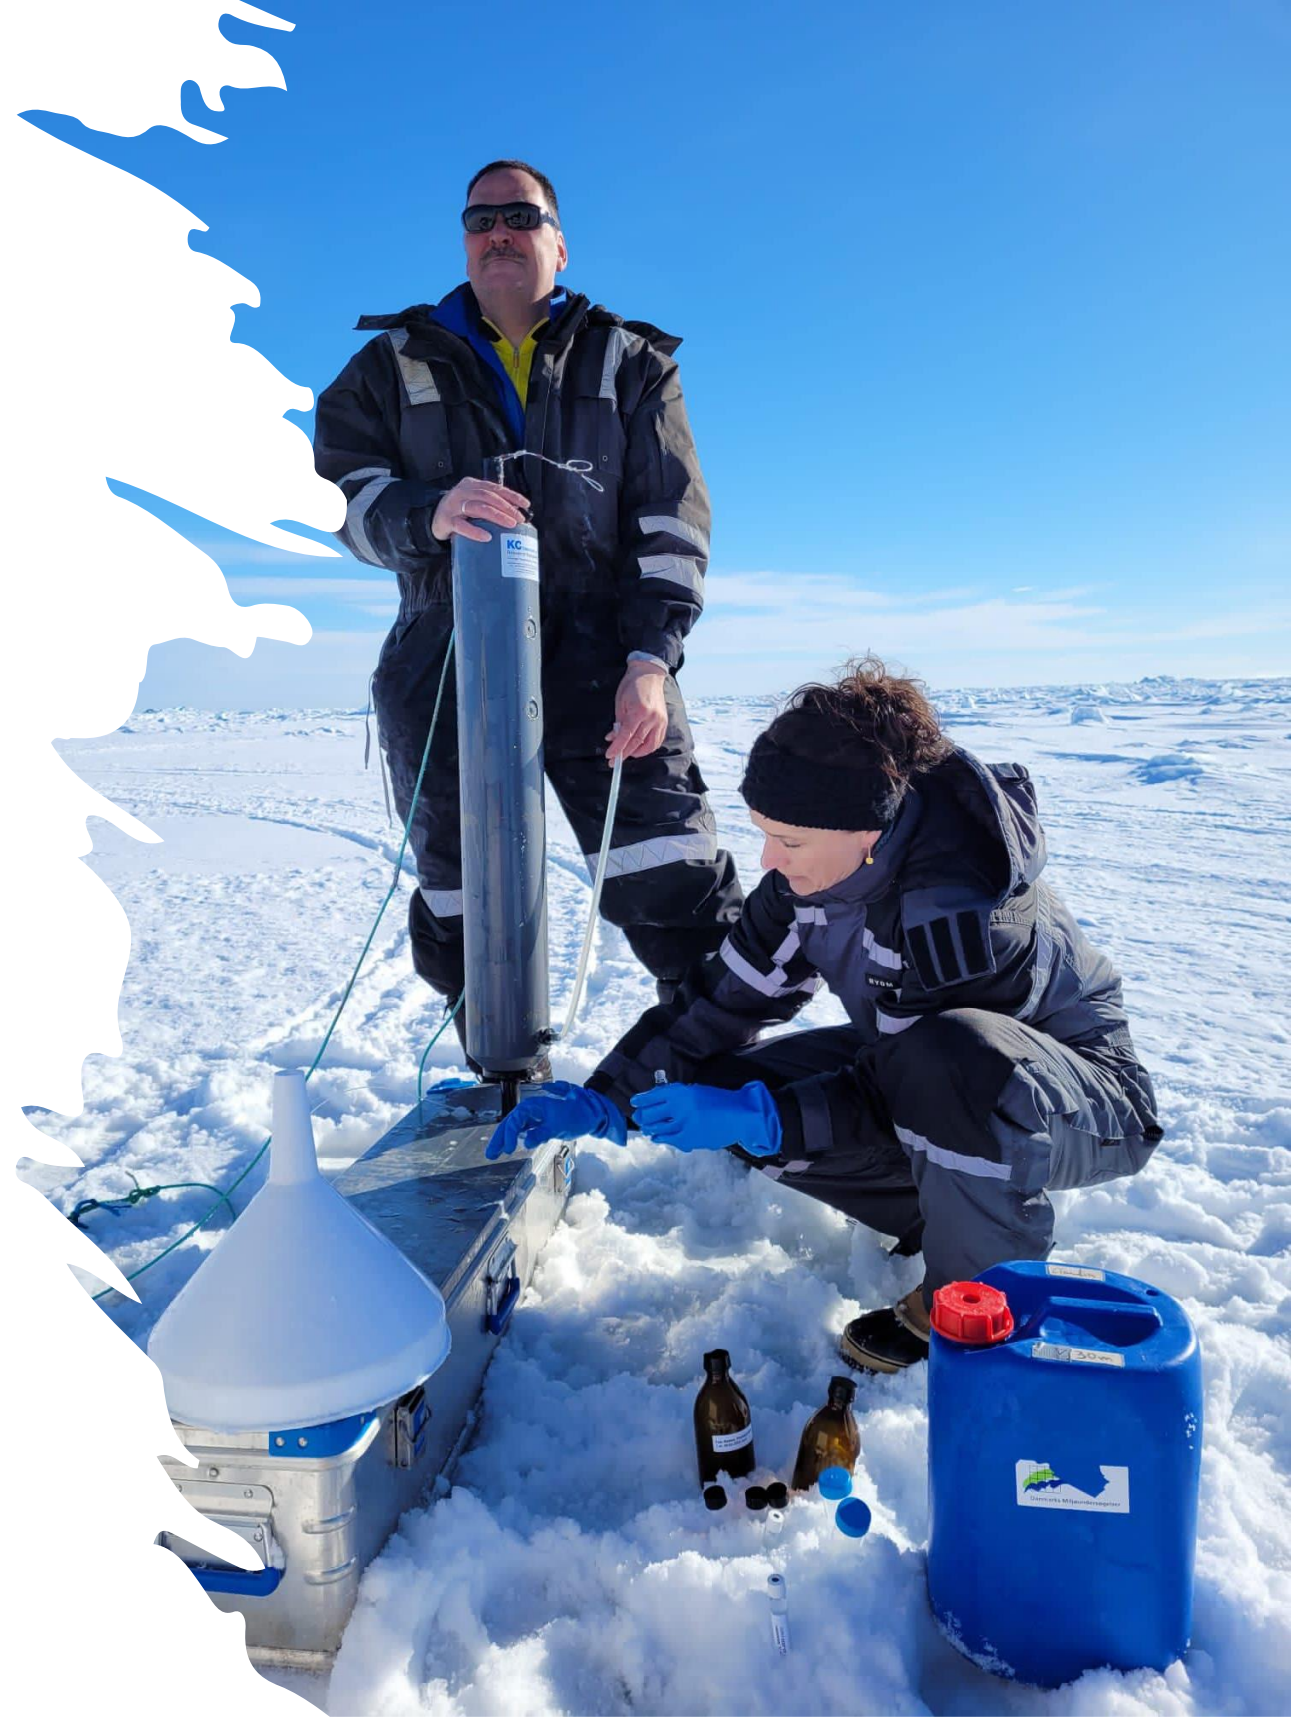

He has been organized in Sisimiut Out Boat Fishermen and Hunter's in over 9 years.

Fisherman
Johannes Mølgaard
Qeqertarsuaq

Fishermen and hunters work closely with scientists in climate change, ice, sea and the ecosystem.

Fishermen and hunter's knowledge and experience is vital for surveys and study of the effects of climate change.

Johannes Mølgaard is Vice-Chair of the Advisory Board of Other Fish Species.

Fisherman and hunter **Lars P. Mathæussen** Nuuk

Lumpfish Fishing south of Nuuk in May 2021. Lumpfish Roe is an important income source for fishermen. The Lumpfish season is very short, so fishermen try to catch as much as possible.

Lars P. Mathæussen is member of the Advisory Board of Hunting.

Fisherman and hunter
Paulus Karlsen (53 Years Old)
Upernavik Kujalleq

Musk Ox catch in Siuteqqut near Upernavik Kujalleq in Summer 2015.

Paulus Karlsen is member of the Advisory Board for Halibut Fishery. It's his second year in the board.

Paulus Karlsen has been chairman and accountant of Upernavik Kujalleq Fishermen and Hunters Organization for many years

Fisherman and hunter
Johan Løvstrøm (42 Years Old)
Uummannaq

Dog sledge in Uummannaq Fiord.

Johan Løvstrøm is member of the Advisory Board for Hunting. It's his second year.

Johan Løvstrøm has been elected as chairman
for Fishermen and Hunters Organization in
Uummannaq for many years.

Fisherman and hunter
Paulus Karlsen (53 Years Old)
Upernavik Kujalleq

Some hunters work closely with
scientists in research programmes.

Here Paulus Karlsen is helping to put a
satellite tracking device with a narwal
in Niaqornat in November 2013.

Advisory Board for Hunting.

Åge Hammeken Danielsen
from Ittoqqortoormiit with
a brand new outboat motor.

Åge Hammeken Danielsen is member
of the Advisory Board for Hunting.

Fisherman

Mikael M. Johnsen

Qeqertarsuatsiaat

On Summer Camp in 2019.

Summer Camping is part of the Greenlanders traditions, where families gather together to collect traditional food. Of course, the camping is also used for leisure and relaxation.

Mikael M. Johnsen is member of the Advisory Board for Hunting.
